HOW DOES IT WORK?

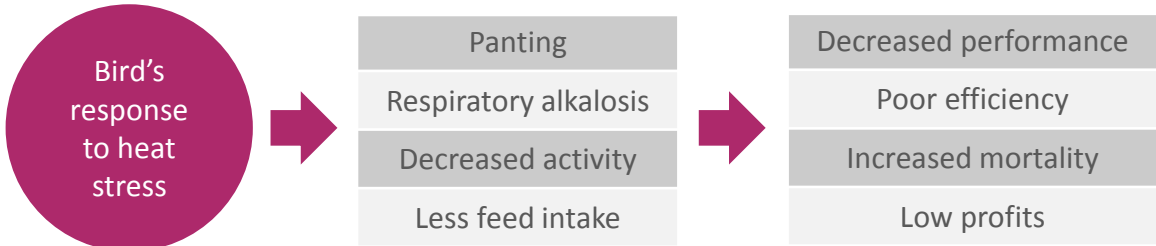

| EUCALYPTOL | THYMOL |
|---|-------------------------------------|
| Effects against disease-causing agents: | |
| Antibacterial | Antibacterial, antiviral, fungicide |
| Effects against secondary problems related to respiratory diseases: | |
| Anti-inflammatory, antipyretic, expectorant, mucolytic | Anti-inflammatory, antioxidant |

Therefore, **HYDROCAP-R** can be used to:

- Prevent **respiratory problems** of both bacterial and viral origin.
- Reduce the undesirable effects of **post-vaccination reactions**.
- Diminish the **contamination of air and drinking water**.
- Relieve **secondary problems** related to **respiratory diseases**:
 - *Secretion of mucus*
 - *Cough*
 - *Throat inflammation*
 - *Bronchitis*
 - *Fever*
- Alleviate **heat stress**.

Heat stress

HYDROCAP-R is especially useful in warm climates because it improves pulmonary ventilation, fluidizes mucous secretions, has antioxidant properties, purifies the air, and increases the thermal sensation of freshness.

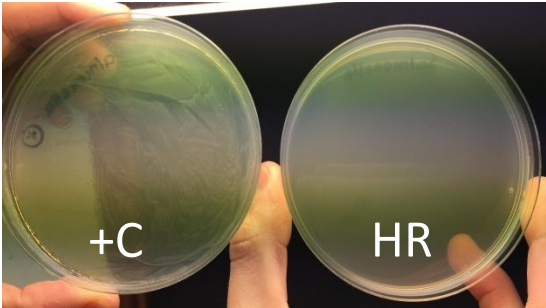

SOME RESULTS...

HYDROCAP-R has antimicrobial activity against:

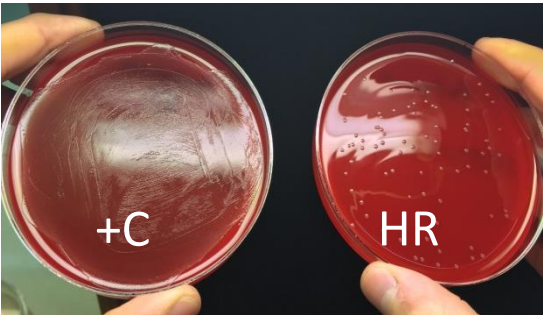

Eschrichia coli
TOTAL INHIBITION

Salmonella typhimurium
TOTAL INHIBITION

Pasteurella multocida
PARTIAL INHIBITION

Micoplasma gallisepticum
TOTAL INHIBITION
